

# Microsoft Enterprise Application Development Platform Update

## Summary

On 27 Feb 2007, Microsoft DPE team ran a half day event to educate the industry on the latest Microsoft Enterprise Application Development Platform. This included .Net framework 3.0 (Windows Presentation Foundation, Windows Communication Foundation, Windows Workflow Foundation, Windows CardSpace), Visual Studio Team System and most importantly the integration between Windows CardSpace and Digital Online Registration and Identification System (DORIS) for 2 factor authentication. The objective of this event is to showcase Microsoft latest technologies as well as to provide the best practices on DORIS (2nd factor token authentication) integration with Windows CardSpace to the public and private sectors. DORIS is a USB form-factor manifestation of SmartVIP smart card technology. This is MHA's approach to create an open architecture and extensible Personal Security System, i.e. DORIS that is in line with the Intelligent Nation 2015 vision.

## Specifics

Venue : SMU Conference Hall 1, Level 5, Singapore Management University

### Comments/Feedback on what they like about the event

- Those new presentation features e.g. Flipping of pages.
- Actual demos to illustrate the usefulness of the MS tools. Venue is convenient.
- Visual and Explanation: Clear and Simple to understand.
- Sharing of various types of the updates in the development platform.
- First Vista Experience
- Good General Review
- The demos
- Sharing of new technologies
- Very informative
- The topics about work flow and team system
- WPF/CardSpace
- Very well condensed and organised.
- Latest technology

### **Acknowledgements**

Special thanks and acknowledgements to **Soh Zhang Sheng** of Ministry of Home Affairs for his strong support in helping to drive attendance for this event, **Dr Steve Miller** and **Gina Tan** for loaning the SMU conference hall to host this event.

Special acknowledgements to the distinguished speakers: **Wellington Perera, Vittorio Bertocci, Chia Lee Theng, Matthew Hardman**

Special thanks to the Public Sector team for supporting and co-funding this event : **Tan Siew San, Derek Tong**

Special thanks to marketing support : **Neha Chhabria** and event organizer **Techmex**

Without them, none of this would have been possible. Thank you everyone for making this event a great success!

### **Some Pictures**

Vittorio, Linda, Lee Theng, Wellington posing before the event starts....

Audience are WOWed by Vista, Sidebar gadgets....

Everyone's favourite time! Tea break!!!

Full concentration!
