

The World is Full of Opportunities for Business Analytics Professionals.

SMU Master of IT in Business (Service Sector Analytics) is Asia's first post-graduate program to address the rapid demand for Business Analytics professionals across strategic Service Sector industries. It trains IT professionals to plan and apply Business Analytics solutions harnessing the synergy of processes, operations, data flow and information systems. Our curriculum is co-designed and co-delivered with leading firms in healthcare, retail, supply chain, hospitality, entertainment and tourism. A Master degree in Business Analytics opens doors to exciting career opportunities in the booming Service Sectors.
